

CHRISTOPHER KNAPP

TECHNOLOGY • SYSTEMS • DEVELOPMENT

Palm Beach County, FL | christopher.ray.knapp@gmail.com | LinkedIn: christopher-knapp-062aaa3b0 | GitHub: Christopher-Knapp

PROFESSIONAL SUMMARY

Technology professional with experience in technical troubleshooting, user and application support, EMR workflows, web development, SQL, documentation, and process improvement. Combines hands-on technical skills with healthcare operations experience, strong communication, and the ability to learn systems quickly and turn real-world needs into practical solutions.

CORE SKILLS

IT & Support

Technical Troubleshooting • User Support • Application Support • Issue Escalation

Systems & Data

Kipu EMR • EMR Workflows • SQL • Relational Data • Process Improvement

Development

HTML5 • CSS3 • JavaScript • Responsive Design • Accessibility

Tools & Professional

Git/GitHub • VS Code • Chrome DevTools • AI Tools • Documentation • Training • Collaboration

PROFESSIONAL EXPERIENCE

Patient Relations | Mandala Healing Center - West Palm Beach, FL

December 2024 - July 2026

- Supported staff with Kipu EMR workflows, documentation processes, and system-related questions; resolved routine issues and escalated permission- or system-dependent problems appropriately.
- Assisted therapists and clinical staff with electronic group-note workflows and documentation standards, helping maintain accurate and consistent records.
- Trained staff on documentation and intake workflows while serving as a dependable resource for day-to-day system and process questions.
- Coordinated across clinical, nursing, admissions, billing, and operations teams to resolve time-sensitive issues, improve workflows, and maintain detailed documentation.

Behavioral Health Technician | Mandala Healing Center - West Palm Beach, FL

August 2024 - December 2024

- Used electronic systems and documentation tools to maintain accurate records and coordinate daily activities with nursing and clinical teams.
- Adapted quickly to internal systems and procedures and was promoted to Patient Relations after four months based on performance, initiative, and problem-solving.

SELECTED TECHNOLOGY PROJECTS

Wholesale Ordering Portal | HTML • CSS • JavaScript • Business Workflow Design

Developing a responsive B2B ordering solution from real business requirements, including product browsing, filtering, quantity controls, order summaries, stakeholder communication, product-data planning, and iterative implementation.

Professional Client Portfolio Website | HTML • CSS • JavaScript • Client Collaboration

Designed and developed a responsive client portfolio, translating requirements and feedback into a polished final product through multiple revisions.

Patient Dashboard | HTML • CSS • JavaScript

Built a responsive healthcare dashboard focused on organizing patient information clearly and creating an accessible, user-friendly experience.

EDUCATION & PROFESSIONAL DEVELOPMENT

Palm Beach State College

Associate of Arts - In Progress

Continuing coursework while expanding technology and business skills.

Certifications & Training

- Google AI Essentials - Coursera
- Introduction to SQL - DataCamp
- Web Development, JavaScript & CSS - Frontend Masters
- Microsoft Power Platform Fundamentals (PL-900) - In Progress
